# Experiment 1: Hotspot in Map

Aim:

To make a Web page in using hotspot in the map using html and map tag in html.

Procedure:

Step 1:

Make a simple webpage with a map image with it

Step 2:

Use the image in map tag.

Step 3:

Mark the hotspot in the map I used the SS and Hekka as Hotspot.

Code:

web.html

```html
<!DOCTYPE html>
<html>

<head>
    <title>
        Map With hotspot
    </title>
</head>
```

```html
<body style="text-align:center">
    <h3>The hotspots are SS Biriyani and Hekka </h3>
    <img src="./Screenshot (1).png"
        alt="" height="900px" width="98%"
        class="aligncenter size-medium wp-image-910965"
        usemap="#shapemap" />

    <map name="shapemap">
        <area shape="circle" coords="680, 160, 26"
            href="hotspot1.html" target="_blank" alt="hotspot1">

        <area shape="circle" coords="540, 750, 26"
            href="hotspot2.html" target="_blank" alt="hotspot">
    </map>
